Q Can I transport my fishing equipment for free?

Here is the information on the baggage allowance for transporting fishing equipment.

• Domestic flights within Korea

- Fishing equipment is subject to the same general baggage regulations as other items. If the weight exceeds the free baggage allowance (20 kg for Economy Class and 30 kg for Prestige Class), a fee of KRW 2,000 per kilogram will be charged.

- The total linear dimensions of fishing equipment must not exceed 292 cm (115 inches).

- Please note that sports equipment not in a hard case (or an exclusive packing container) cannot be compensated for damage.

• International flights

- Sports equipment must not exceed 32 kg (70 lb) in weight or 292 cm (115 inches) in total linear dimensions (length + width + height). If the free checked baggage allowance is exceeded, excess baggage fees will apply according to the regulations for each type of sports equipment.

- Fishing rods (in a bag) and other equipment bags will be counted as one checked baggage item if their combined weight does not exceed the allowance for the booked boarding class.

Please refer to the links below for more details on the baggage allowance criteria!
